## HARDING MAKES HIS FIRST SPEECH AFTER ELECTION

SAYS HE INTERPRETS HIS ELECTION AS A MANDATE AGAINST LEAGUE OF NATIONS

WILL MAKE EFFORTS TO RESTORE CORDIAL INTERNATIONAL RELATIONS

RAYMOND CLAPPER, (United Press Staff Correspondent.)

Marion, Ohio, Nov. 5.—The league of nations has been pronounced dead by President-elect Warren G. Harding.

In one smiting sentence the next president of the United States sounded the death knell of the covenant.

It came as a climax of his first speech since election in speaking to a delegation from his front porch last night when friends and neighbors came by the thousands to congratulate him on his election.

The American people by an unparalleled majority want the league of nations scrapped, according to the interpretation Senator Harding places on the solemn referendum. He made clear that the mandate will be carried out to the letter.

The Marionites in a parade carried to the front porch a structure effigy of a corpse labeled "The League of Nations."

"You didn't want to surrender the United States. You wanted America to be free and unincumbered. That is why you didn't care for the league which is now deceased."

Senator Harding thus took the first opportunity after his election to clear the air of the league matter.

"But simultaneously I will undertake the restoration of entente cordiale between the United States and nations of the world. This policy contemplates America taking an active part in restoring normal international conditions."

"It means resumption of relations with Germany as soon as possible, and with Russia and Mexico ultimately, and negotiation looking toward an 'Association of nations.'"

Two moves are expected to be made by Senator Harding in the near future.

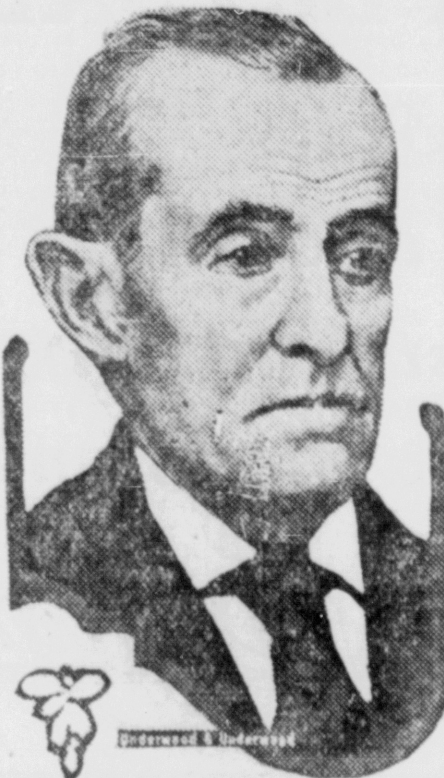

Meeting of Mexican leaders including probably President-elect Obregon on the border while vacationing at Point Isabel, Texas, and conference with senate leaders over drafting of a resolution declaring the war with Germany at an end, and providing for resumption of normal trade relations.

Although Secretary of State Colby has intimated the Wilson administration may recognize the Obregon administration, the feeling at Harding headquarters is this step will be left to the discretion of the new administration.

The terms on which Senator Harding will extend recognition to Mexico will be firm but fair, it can be stated authoritatively.

Mexico's national dignity will be

MATHIAS HARTMAN

Mathias Hartman of Line Lexington, Bucks county, Pennsylvania, one hundred and three years old in November, is believed to be the oldest male resident of Pennsylvania. He can see to read and write without glasses and has a remarkable memory, clearly recalling events of 90 years ago. He looks like a man of eighty or less. His wife died several years ago.

Justly respected by the Harding administration.

Conference with senate leaders over the resolution of peace with Germany will not begin for at least a month.

Although the question of Senator Harding's plan regarding the proposed "association of nations," is upmost, it may be stated Senator Harding has no plans of his own and he will propose no detailed plan for some time to come. Ultimately he intends to call together a bi-partisan conference to map out a course.

It is probable under President Harding the group of treaties negotiated by President Wilson at Paris will not see daylight again. In these are included the treaty with Germany sent back to President Wilson by the senate; the Austrian treaty, never submitted by President Wilson to the senate; the Franco-American agreement, untouched in the executive vault of the senate, and several lesser pacts.

A new world relationship will be established, Senator Harding told his neighbors last night.

"When the next administration comes into power it is going to ask for a combination of nations associated together in the spirit of justice and right in a way that surrenders nothing of America's national freedom."

## HARDINGS READY FOR TEXAS TRIP

(United Press)

Marion, Nov. 5.—Warren G. Harding's trunks were being packed today preparatory to his trip to southern Texas for two weeks.

The president-elect cleaned up urgent mail and saw a number of visitors. The Harding headquarters have been practically deserted since election day.

## NONPARTISANS LOSE FIVE SEATS IN LEGISLATURE

AMENDMENTS ALL CARRY EXCEPT NO. 3—NO. 1 WILL HAVE 100,000 MAJORITY

(By United Press)

St. Paul, Nov. 5.—The Nonpartisan league lost five or more seats in the lower house of the legislature in the republican landslide, according to returns today.

The league has elected less than twenty-two representatives in the legislature and this may be cut to nineteen or twenty when final counts are made. Last year the nonpartisan league had twenty-seven representatives in the legislature.

Amendment number one providing for \$100,000,000 worth of good roads in the next ten years, passed by an overwhelming majority, more complete returns show. The total vote for this amendment will go over 425,000, it was believed. The largest total of votes cast in any state office may reach close to 700,000.

Amendment number three probably is defeated, but the other two amendments have a good chance to win.

St. Paul, Nov. 5.—One league was killed and another badly wounded in the republican landslide.

In only one state did the national nonpartisan league gain victory—in Wisconsin. In North Dakota where the nonpartisan league was born and grew into control, the league was believed to have suffered a set-back in spite of the re-election of Governor Frazier for a third term, the naming of a United States senator and probably the election of most of the state ticket. In face of incomplete returns it lost control of both houses of the state legislature however—a vital blow.

The election of J. J. Blaine as governor of Wisconsin cannot be claimed entirely as a nonpartisan league victory either. However, the league was "on" him, and thus satisfied.

In Minnesota where the nonpartisans were confident of gaining at least a few state offices or legislative seats they were given a bad beating. A record plurality was polled for opponents of the league and the campaign issue was so clear cut as to make the league defeat decisive.

The South Dakota situation is practically the same. In Montana where the league candidates run on the democratic ticket the landslide was disastrous. Nebraska went anti-league, as did Iowa, Texas and Colorado.

Volstead Elected by a Small Majority With only sixteen small country precincts missing out of 380 in the seventh district, Volstead had 35,512 vote, and Kvale 33,297.

## NORTH DAKOTA ELECTION RESULT

FRAZIER, GOVERNOR, AND LADD, U. S. SENATOR—NONPARTY CANDIDATES ELECTED

(United Press)

Fargo, N. D., Nov. 5.—A fusillade of anti tore great holes in the nonpartisan league control of the North Dakota state government in Tuesday's election, returns showed today. The league won only three important victories.

They were: Re-election of Lynn J. Frazier as governor for the third term; election of Dr. E. F. Ladd as United States senator, and re-election of J. H. Sinclair to congress from the third district.

The league apparently lost its majority in both houses of the state legislature although the count is close.

## SOUTH DAKOTA REPUBLICAN VOTE BREAKS RECORD

Pierre, S. D., Nov. 5.—Republican majorities in South Dakota will exceed all previous records, almost complete returns on state offices indicated today. The entire republican state ticket was elected apparently by a big plurality. In most cases the nonpartisan league ran second and the democrats third.

MRS. HATTIE WHITTAKER

Mrs. Hattie Whittaker of Washington, D. C., who was elected president of the Rebekah assemblies at the one hundredth anniversary meeting of the Odd Fellows sovereign grand lodge in Boston. Mrs. Whittaker was formerly vice president of the assemblies.

## WHAT WILL WILSON DO ABOUT LEAGUE

IS THE QUESTION AGITATING SECTIONS OF CAPITAL—DIFFERENT COURSES SUGGESTED

(United Press)

Washington, Nov. 5.—The "solemn referendum" on the league of nations question has come against President Wilson and his friends as well as critics of the league.

"What will President Wilson do now about the peace treaty?"

The answer is known only to the president. If he intends to do anything he has not confided in his official family. Many suggestions have been made. Among them these:

That President Wilson will do nothing more about the treaty or the league, leaving to Harding the task of making peace with Germany and deciding on what terms the United States shall co-operate with other nations to prevent war.

That he will re-submit the league covenant to the senate in December with a statement that he will accept ratification with such reservations as the senate adopts. That he will resign shortly and step out of the treaty fight as suggested by Wm. Jennings Bryan. That he will make a separate peace with Germany before March 4, 1921. That he will shortly address a statement from the president or those which he will say his last word officially on the treaty.

All these are mere suggestions. There is not a single authoritative statement from the president or those close to him. The White House refused to discuss Wm. J. Bryan's suggestion that Wilson resign to let Harding be sworn in at once. The report that Wilson plans to step out soon after election has been going around here and has even gone unmentioned in certain official quarters.

## BOLSHEVIKI LAUNCH FIERCE OFFENSIVE AGAINST WRANGEL

(United Press)

Constantinople, Nov. 5.—The latest communique from General Wrangel's headquarters said that fierce fighting was continuing in the Lauria region.

Soviet reports declared that immense successes had been gained and that all forces, aerial and land, had been launched against the seven mile line of defense across the neck of the Crimea Peninsula.

## SINN FEINERS SLAUGHTER 17 BRITISH POLICE

London, Nov. 5.—Sinn Feiners have scored one of their bloodiest victories of the hated black and tan police, according to the London Star.

They are reported to have killed seventeen policemen in an ambush near Ballinacorney. The Star correspondent said machine guns were used to cut down the police.

## PROMINENT MEN IN PUBLIC LIFE ARE RETIRED BY VOTERS

CHAMP CLARK, LONG IN THE HOUSE, IS NOW RE-ELECTED

(By United Press)

Washington, Nov. 5.—The 1920 presidential and congressional elections were passed into history today and with practically complete returns in, the score looked like this:

Senator Harding got 404 electoral votes and Governor James M. Cox got 127.

The republicans won ten additional seats in the senate, giving them a total of 59 to the democrats 37.

The republicans gained 41 seats in the house giving them a total of 281 to the democrats 153, and the socialists one. The prohibitionists lost their sole member.

While these figures show that the republican gained the greatest political victory that has come to any party since 1912 when Woodrow Wilson was elected president under democratic control, both branches of congress today do not tell the full story, for the republicans won Tennessee, a unit of the solid south; they won Oklahoma, almost as strongly democratic, and they elected one congressman from Texas, a brother-in-law of Postmaster General Burleson, being the democrat defeat. They also carried some election totals in the traditionally democratic states of Georgia, Louisiana and Mississippi.

With the democratic defeat there passes out of public life some of Washington's most picturesque figures. Champ Clark, at one time candidate for president and former speaker of the house, who enlivened the debates with his quaint and homely phrases, was defeated.

Isaac T. Sherwood, the oldest man in the house and one of the few surviving civil war generals, will not return from his Ohio district. Henry T. Rainey of Illinois, another of the democratic veterans, will not come back.

With the oldest member of the house there goes the youngest member, King Swope, of Kentucky, who was slightly over the legal age of twenty-five when elected to fill a vacancy by the death of Harry Helm. Another youngster is Cummings from Michigan.

From the senate goes Senator Phelan of California. Senator Gore, the blind member from Oklahoma, was beaten in the primaries.

Coming into the next house is Theodore E. Burton, whose refusal to stand for re-election to the senate from Ohio in 1914, gave Senator Harding his chance to run. The house will also have a second woman member, Miss Alice Robertson, of Ohio.

From the executive branch of the government house there will pass Postmaster General Burleson, who rides a horse-drawn carriage instead of an automobile, and carries an umbrella in fair as well as cloudy weather; Secretary of the Navy Daniels, who clings to the broad brim, straight crown hat, and Wm. B. Wilson, the one who came from the coal mines of Pennsylvania to be secretary of labor.

The electorate meeting has been set for the second Monday in January when they will cast ballots for president and vice-president. They are sent to the president of the senate and when all have reached him they are opened and counted before a joint session of congress.

## MINNESOTA TEAM TO PLAY WISCONSIN WITHOUT CAPTAIN

(United Press)

Minneapolis, Nov. 5.—Minnesota's football eleven will be captainless when it goes against Wisconsin here tomorrow.

Neal Arntson, quarter back and engineer was called to Red Wing, early today when his sister Helen, age 20, died suddenly. Death occurred at 6 a. m. today.

Besides Arntson, Minnesota will be minus Ruben, star fullback, and Clement, regular center.

Friedly probably will play quarterback and Regnier most likely will call the signal.

DR. JOSE SUAY

Dr. Jose Esperanza Suay is minister of finance of Salvador and one of that republic's leading citizens.

## WOMEN WILL PLAY LARGER PART IN PUBLIC AFFAIRS

THE ADMINISTRATION OF SENATOR HARDING WILL HAVE WOMAN IN CABINET

(United Press)

Marion, Ohio, Nov. 5.—Women will play a larger part in the administration of Senator Harding than ever before in American history, it was learned today.

There will be a woman in his cabinet, and in the department of public welfare if created by congress as recommended by Senator Harding.

Women will also be called into conference on the league of nations question. Mrs. Raymond Robinson of Chicago, is one woman mentioned as the possible head of the proposed department of public welfare.

## EIGHTEEN YEAR OLD GIRL IS MURDERED

BODY FOUND IN VACANT LOT WITH THROAT SLASHED

St. Louis, Mo., Nov. 5.—The body of Miss Edna Ellis, eighteen year old telephone operator, was found in a vacant lot today. Her throat was slashed in two places. Tan gloves which she wore were cut to ribbons, indicating she had been murdered after a desperate struggle. A nearby negro settlement was searched by police for the murderer.

Police found the girl's coat and hat near the spot where her body was found. Her handkerchief was found a few feet away, red with blood. Clashed in her hand was a vanity case with the mirror broken.

## HOLLAND RESPONSIBLE FOR KEEPING KAISER

London, Nov. 5.—The safe keeping of the former kaiser has been laid at Holland's door. Premier Lloyd George, who in the commons pledged himself to plans for punishing the former emperor, said his pre-election pledge had not contemplated making war on Holland to force Wilhelm's delivery to an international court.

## WILSON OFFERS PRESIDENT'S YACHT TO SEN. HARDING

Washington, Nov. 5.—President Wilson today placed at the disposal of President-elect Harding an American battleship and the president's yacht, "Mayflower," for the latter's proposed trip to the Panama canal. The offer was made in a telegram sent to Senator Harding by Secretary of the Navy Daniels at the direction of President Wilson.

## Death Head Troopers, Who Routed Bolsheviki, and Woman Commander

In this group of troopers of the Polish Death Head Cavalry is seen their woman commander. It was these troopers who forced the Bolsheviki forces to retreat at Lemberg. A number of women are members of the Death Head Cavalry and when it comes to fighting they are said to surpass the men in fearlessness and daring.

## Pit Pony Seeing Daylight Once More As Striking Welsh Miners Quit Work

Hundreds of pit ponies are strongly in favor of continuing the great British coal strike indefinitely. This photograph, taken at Pontypridd, Wales, shows miners leaving the pit when

the general strike was called. They brought out with them one of the pit ponies which saw daylight once more after months of darkness.

Sentiment is gaining ground that the pay of election judges and clerks is entirely inadequate and should be revised at the coming session of the legislature. In the same line is the necessity of increased pay for grand

## COAST-TO-COAST TRIP IN 24 HOURS

Zion City, Ill., Nov. 5.—From coast-to-coast in 26 hours is the aim of Albert W. Lawson, aeroplane manufacturer, who has under construction what he considers the present "last thing" in airships.

According to Lawson, it will be everything desired in comfort and speed.

"The new ship will have a speed of 120 miles an hour," said Lawson. "She is equipped with tanks which carry 600 gallons of gasoline on the regular trips of twelve hours each, but in case the airliner should need to make a flight of from 24 to 36 hours duration, auxiliary tanks could be placed on for such purposes."

"The new ship could go into the air at San Francisco at 4 P. M. Monday and not come down until she arrived in New York City on Tuesday evening at 6 o'clock or thereabouts."

The new liner, which Lawson believes will surpass the German type of Zeppelin and the R-33 and R-34 turned out by Great Britain, is having the finishing touches put to it. It is expected to take the air shortly. A rich cream color tint has been put on the ship. The lower half is green and the floor is covered with rugs. Trimmings are in walnut. Berths are draped with hanging folds of rich green drapery that matches the general color scheme. The bathroom is in pure white.

No other system in the body has as vital a bearing on every diseased condition as does the NERVOUS SYSTEM.

It is thru this system that that elusive something travels which actuates the entire human organism. It is upon the activity of the nervous system that every organ in the body is dependent for its function. The heart beats only because it receives thru the nervous system, its normal quantity and quality of energy by way of the nervous mechanism. If it so happens that those nerve fibres are affected which supply the heart it is abnormal in its function; and so this is true of every organ and tissue of the body.

Panamas, with Robert Hill, captain.

Harry Wolvert acted as manager.

The Buffalo Locomotives and the Kangaroos ran neck and neck in regard to the number of points scored from each event, but the Kangaroos finally won out by a narrow margin. Some "dispute" arose between the Kangaroos and the Panamas in regard to the fairness with which one of the events was "pulled off," but the argument was soon quieted down.

After the games the party adjourned to the domestic science rooms where delicious refreshments were served by the refreshment committees of the two classes. Apple pie a la mode, seemed to be a very favorite dish with many, taking into consideration the number of pieces with which some of the students "got away with."

After the refreshments, the party soon broke up only to meet again within a short time to a similar event.

The Little Falls football team was invited to attend but it seems as though the boys had to return to their native city immediately after the game.

George Engstrom, president of the Senior class and snappy end on the local high school football team could not favor the party with his presence as he was injured quite seriously in the football game in the afternoon.

**COMBINES ROLE OF TEACHER AND PUPIL**  
(By United Press)  
Cohavallis, Ore., Nov. 5.—Teacher in the morning and pupil in the afternoon—that is the double role which is being played here by Miss Gladys Kies, of Vancouver, Wash., senior in the home economics department at the Oregon Agricultural college.

Miss Kies is an instructor in kindergarten work during the forenoon and goes to her sociology, bacteriology and other "ology" classes at the college after lunch. Being an expert cook, Miss Kies assumes a third role whenever the cook at her sorority house is ill, or on a strike.

**LONDON GETS THE COCKTAIL HABIT**  
(United Press)

London, Nov. 5.—London has adopted the cocktail habit and no establishment is now considered complete without an "American Bar."

The habit has specially caught on with women and in the Ritz, Carlton, Piccadilly and other well-known West End restaurants diners come early and spend a preliminary half hour chatting over an "aperitif."

Nearly every Englishman now has a particular "shaker" he swears by. At the American Club, Collins, a colored man, is declared to be the London champion shaker but those who frequent the Royal Automobile club bar speak reverentially of "Nick" who is renowned as "a great artist."

**She Says It Can't Be Beat**  
Deep seated coughs that get hold of one in Autumn should be stopped now or they may continue all winter.

**THE FIRST LADY OF THE LAND**

**"Instinct" and "Reason."**  
Those who talk of "instinct" as taking the place of reason in the lower animals have utterly failed to explain this flock, or unit, "instinct" which governs the actions of many different kinds of birds. It is hard to believe that the same "instinct" operates on each individual in such a way as to produce the same reaction on every individual. Other naturalists, perhaps more fanciful, believe that the animals have some subtle means of communication, perhaps through the operation of a sixth sense, and that the flock impulse is derived from a kind of reasoning instead of from that indefinable something which has been called "instinct." It is a safe guess that anyone who watches the autumn maneuvers of a flock of blackbirds will find his belief in the "instinct" theory rapidly weakening.

**True Business Precepts.**  
To rise in the world you must keep on doing. See that you have enough iron in the fire to keep you busy. Add a new one as you become skilled to do faster and better work. Keep them all hot and use the hammer with trained eye and hand. Keep at it. Let others tire if they must. There will always be enough work to keep you busy and the busier you are the more you will learn to accomplish. Don't be afraid of new things. Every one who attempts to rise has them. The way you attack them will reveal your fitness for bigger things and as you succeed interested watchers of your efforts will pass on the story of your activity thereby advertising your worth and helping you rise to your rightful place in the world. So whatever you do use the right means and keep your irons hot.—Grit.

**S. S. Convention**  
Duluth, Nov. 5.—Delegates from all sections of the state were gathering here today for the sixty-second annual convention of the Minnesota Sunday School association.

**Canada Buys More From U. S.**  
Winnipeg, Nov. 5.—In 1919 Canada bought from the U. S. goods to the amount of \$692,000,000. This year it has bought goods to the amount of \$904,000,000, the advance in the twelve months being in excess of \$200,000,000.

In 1919 Canada bought from Great Britain \$776,000,000 and in 1920 it bought goods to the extent of \$206,000,000, a gain of \$130,000,000.

The gain in trade with Britain was proportionately much greater than the gain in trade with the U. S.

Exchange is much against Canada in buying from the U. S. and very much in favor of Canada in buying from Great Britain. This to some extent accounts for the greater increase in trading with Britain.

If \$100,000,000 worth of goods which were bought in the U. S. in the past 12 months, could have been bought in Britain, it would have had a very good effect on the rate of exchange in both countries. As the rate of exchange to London is very low at the present time, the tendency will no doubt be to increase trade with Britain.

**Moorhead Enters Association**  
Moorhead, Nov. 5.—Moorhead in the heart of the Clay county potato district will enter Nov. 5-7 the Minnesota Potato Growers' association. Speakers will be Hon. W. I. Nolan, Minneapolis; Dean R. W. Thatcher, Minnesota Agricultural college; N. J. Holmberg, commissioner of agriculture and H. S. Tennant of the U. S. bureau of markets.

The Minnesota State Potato Growers' association and the Red River Valley Development association contributed \$200 towards the expenses of the meeting and the balance was raised among local business men.

I have found it to be the best medicine in the world and am glad I made the sacrifice." "THE COURT OF KING COLE"

Charming Extravaganza to be Given by Local Talent at Park Opera House in Near Future

Mrs. Harriet Purdy Smith, of Chicago, is training local talent for a musical extravaganza, entitled "The Court of King Cole," to be presented at the New Park theatre in the near future. This production is under the auspices of the American Legion Post of Brainerd. Mrs. Smith comes here from pronounced successes in other nearby cities. Mrs. Smith is a trainer of local talent with few equals. Originally she was a teacher of aesthetic physical culture in the Chicago school of opera, and is considered to be one of the best exponents of her art in the United States. Her productions are always artistic, pleasing, humorous, and highly successful. They are staged with the most careful thought and minute attention to detail, in a way that the abilities of the performers are never over-taxed. "The Court of King Cole" is a scenic extravaganza, is musical, comic and pleasing. The grouping is well done and splen-

did chorus work always catches the hearts of the audience, with its rhythmic movement and splendid opportunity for individual specialty work. Rehearsals were begun this week in the Legion hall where the people taking part in the cast will hereafter meet three times a week, until the performance is given. The cast includes some of the most talented young people of the town.

### HARDINGS PLURALITY IN CO. 4110

### BRAINERD'S OLDEST STORIES

The Western Union girl was stumped this morning when she got a telegram addressed to "The City of Brainerd". The Dispatch advised her to deliver the same either to the city clerk or Mayor Little.

"Any more weather like this," said a Brainerd man, "and I'll be blamed if I go to California". It's been so warm that coal and wood fires are not needed to any extent.

Somebody played a mean trick on John and L. Ledoux who have a gasoline saw rig. It wasn't noticed until they attempted to start up the saw when repeating cranking of machinery refused to get any action out of the engine. After some examination it was found that the tank was full of water instead of gasoline.

## MUST CONTINUE RELIEF SERVICE

AMERICAN RED CROSS CANNOT  
WITHDRAW FROM EUROPE,  
SAYS DOCTOR FARRAND.

### NEEDED MOST IN NEAR EAST

Special Field of Organization Will Be  
the Eleven Millions of War Orphans  
and Other Millions of Under-  
Nourished Children.

By JAMES P. HORNADAY.  
Washington.—According to Dr. Livingston Farrand, chairman of the central committee of the American Red Cross, who has just returned from Europe, the greatest of the problems confronting Europe today pertains to the 11,000,000 war orphans and the additional millions of undernourished, uncared-for children who in a few years will replace adult populations in the economic life of their respective countries.

Doctor Farrand went to Europe for the purpose of observing conditions at short range, in order that the Red Cross executive committee may have first-hand information on which to base the promulgation of a definite program for the immediate future, and to advise and consult with American Red Cross officials in the foreign field regarding preliminaries in the setting up of units that will carry on the work soon to be outlined.

Plans made immediately following the conclusion of hostilities in the World war, contemplated the meeting of pending obligations and the withdrawal of the American Red Cross from Europe at the earliest possible moment. It was believed that by this time practically all active work abroad could be terminated. But the existing situation was not foreseen. The after-war menace of epidemic diseases was not presented in full force until some time subsequent to the signing of the armistice and the problem of the children has been given its most appealing force since economic readjustment in Europe has got underway.

Cannot Withdraw Now.  
For the American Red Cross to withdraw from Europe now would be a world catastrophe. This is the conviction not only of Doctor Farrand but of all the experts who have made observation abroad. The aid which the American people must extend, both in the interest of humanity and for their own self-interest, has in the American Red Cross one of its chief mediums of action. There will be serious emergencies that must be met during the coming winter and there will be need for outside aid in relief and welfare work, especially in the Balkans and the countries of eastern Europe, for at least another year.

Doctor Farrand reports that progress is being made in the restoration of industrial and general economic conditions, and he was particularly impressed by the unexpected progress that has been made in the reclaiming of lands in the devastated regions of France and by the general crop outlook. Poland is the country where the results of a crop shortage are most feared during the winter months. Warfare within the borders of Poland is largely responsible for the conditions, and suffering bordering on starvation may ensue. Broadly speaking, the starvation problem and the problem of clothing the people are not as acute as they were a year ago, thanks in no small measure to the work of the American relief administration.

What the Red Cross Plans.  
Again it is emphasized that the feeding and clothing problems as they still exist are too great for the resources of voluntary organizations like the Red Cross. The major attention of the relief administration from now on will be devoted to the feeding of children. The American Red Cross finds the field of greatest usefulness in connection with the health needs of the neglected children and the lack of the guiding influence of parents and teachers. The league of Red Cross societies is giving particular attention to the fight against typhus.

Tentatively, the plan of the American Red Cross is to curtail the centralized administration of relief work which has served admirably under previous conditions respecting general relief—the staffs of the European commissions already have been greatly decreased—and to set up numerous small units throughout the countries of eastern Europe. There may be from 100 to 150 of these units, each being guided in its work by the conditions immediately surrounding its field of operations. Each unit probably will have a doctor, one or two nurses and a trained social worker, the function of the nurses resembling that of the visiting nurse here at home, with emphasis on the teaching of parents to care for children properly, as well as the actual nursing of the sick and weaklings.

Doctor Farrand reports that America is not shouldering alone the burdens of relieving distress in eastern Europe. England is contributing its money and workers, actuated by the same humanitarian and protective motives that apply to our own people, while Italy is doing effective work in caring for destitute children of Austria. Other agencies besides the Red Cross are doing splendid work.

## PALMER CALLS ATTORNEY IN COAL CASES TO WASHINGTON

(By United Press)

Indianapolis, Nov. 5.—Attorney General Palmer today wired attorneys here handling the government case against 125 coal miners and operators charged with conspiracy to violate the Lever law, to come to Washington immediately for a conference with him.

Palmer's action followed that of Federal Judge A. B. Anderson, who yesterday announced he would investigate the attorney-general's connection with the coal case when it comes up for trial Monday. Anderson at the same time issued an invitation to Palmer to be present Monday.

## TO DIE ON GALLOWS FOR SHERIFF'S MURDER

(United Press)

State Penitentiary, Salem, Ore., Nov. 5.—One of the three lives which, the law decreed, shall be given for one, was to be choked off here today when Emmett Bancroft, alias Neil Hart, was scheduled to go to his death on the gallows.

Bancroft, an Indian half-breed, with four other prisoners, escaped from the county jail at Pendleton, Ore., July 25, this year, after killing Sheriff T. H. Taylor, one of the best-known and popular officers in Oregon.

Bancroft admitted, during his trial, it was he who fired the shot which killed Sheriff Taylor. It was largely due to his testimony at a subsequent trial, that Elvin Kerby and Jack Rathie, fellow-conspirators in the jail-delivery plan, were convicted of first-degree murder. They are under sentence to hang December 3. From the time he was captured, three days after the jail delivery, until he was brought to the penitentiary, Bancroft maintained the stoic demeanor which characterizes the Indian.

But once behind the prison bars, his manner became subdued. He told the prison warden he wished to accept the Protestant religion, and at his request he was frequently visited by a clergyman.

### Most Important.

Mrs. A. L. Allen, the Freudian philosopher, said in a lecture in Chicago:

"I know a young mother who once decided to impart some of the mysteries of childbirth to her nine-year-old daughter, so she took the child aside and explained to her with hushed reverence that the stork has nothing to do with the coming of little strangers, that the baby is never found under a cabbage in the garden and that the doctor never brings him in a bag."

"The little girl was very much impressed. At the end of the discourse she put her arms around her mother's neck and whispered: 'Mother, have you told daddy about this, too?'—Los Angeles Times.
